### 4 FIRST AID MEASURES

**Inhalation:** No hazard for product as sold. Fabrication operations such as milling, cutting, grinding, etc., may produce dust or chips that may be irritating or harmful if inhaled. If irritation persists, seek medical attention.

**Skin Contact:** Solid sheet may be abrasive to, or cut skin. Fabrication operations such as milling, cutting, grinding, etc., may produce dust or chips that may be irritating. If irritation persists, seek medical attention.

**Eye Contact:** No hazard for product as sold. Fabrication operations such as milling, cutting, grinding, etc., may produce dust or chips that may be irritating. For dust or chips, flush eyes with water. If irritation persists, seek medical attention.

**Ingestion:** Not an expected route of entry with normal use of product.

### 5 FIRE FIGHTING MEASURES

**Flash Point:** Not Applicable.

**Flash Point Method:** Not Applicable.

**Autoignition Temp.:** Not Available.

**Burning Rate:** Not Available.

Use extinguishing media appropriate for surrounding fire. Wear fire protective equipment appropriate for the surrounding fire.

Hazardous products of combustion include carbon oxides (CO and CO₂).

**Unusual Fire and Explosion Hazards**

Product as sold does not present an explosion hazard. Finely divided dust generated by fabrication operations such as milling, cutting, grinding, etc., can create an explosion hazard if the airborne dust concentration exceeds 900 grams per cubic meter and it contacts an ignition source greater than 8 Joules. (A person standing in a uniformly dispersed dust cloud of 50 grams per cubic meter will not be able to see his/her outstretched hand.)

### 6 ACCIDENTAL RELEASE MEASURES

**Small Spill or Leak:** Not Applicable.

**Large Spill or Leak:** Not Applicable.

### 7 HANDLING AND STORAGE

**Handling Precautions:** No specific usage precautions required. Follow normal good hygiene practices. Protect exposed areas from cuts and abrasions.

**Storage Requirements:** Store in a dry well-ventilated area. Trace amounts of formaldehyde may be released when laminate is shipped or stored.

### 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

**Engineering Controls:** No special ventilation requirements for product as sold. Provide adequate ventilation to meet exposure guideline if fabrication operations generate dust or fumes.

**Protective Equipment:** Respirators - No specific recommendation made, but respiratory protection must be used if the general level exceeds the Occupational Exposure Level (OEL).
Protective gloves - Gloves suitable for protection against cuts and abrasions from sharp edges are recommended.

Eye protection - Wear safety goggles during fabrication operations that produce chips, fines or dust.
