Inspiration for Generations.
SURFACES FOR EDUCATION

Wilsonart®
A school is more than a place to learn for a few hours. It’s a catalyst that creates strong foundations for students and brings entire communities closer together. A school is a promise to everyone who steps inside: This is a place you can learn, be inspired, and form meaningful relationships with those around you.

To inspire a lifetime of learning over multiple generations, facilities need materials that can embrace current trends, support community pride, and embody future-focused pedagogy. Surfaces that are engaging, enduring, and easy to maintain will also be of the utmost importance to schools looking to make wise long-term investments.

Our broad portfolio of innovative, high-performance materials work beautifully in classrooms, media centers, dining areas, and places in between. With dynamic colors, textures, and custom designs, the right surfaces play a key role in fostering self-belonging and school spirit.

With Wilsonart, you can create learning environments that provide inspiration and value, for today, tomorrow, and well into the future.
Today’s media center is a technological playground where students study, collaborate, and learn at a high level. Spaces like this require a mix of surfaces that facilitate meaningful engagement across the landscape.

### Collaborative Area
Tabletops with our Traceless™ Laminate feature a unique, soft-to-the-touch feel that conceals smears, smudges, and streaks. Need doors for cabinets? Our five-piece door program provides ready-to-install designs for multiple applications.

### Social Zone
Students are immediately attracted to collaborative landing spots like these, where tables are topped with Markerboard laminate and Wilsonart®You turns a wall into a unique focal point for information or inspiration.

### Technology Central
Compact Laminate tops and Decorative Metal screens set the stage for connection and productivity. Combined with High Pressure Laminate with AEON™ Enhanced Scratch and Scuff-Resistant Technology, you’ll have the durability required for high-use areas.

### Design that’s anything but old school.

### Fargo 1001  QTZ  UPTOWN WALNUT 7971  HPL/SPC
1. **High Pressure Laminate**
   - Made for outstanding durability.
   - With our depth and breadth of options, you can create a functional and approachable support desk.

2. **Quartz**
   - For high-touch applications, our Quartz offers a calming, homelike feel that adds both character and long-term durability.

3. **Markerboard**
   - Our Markerboard offers an interactive medium for sketching thoughts, testing new ideas, and taking notes in real time.

4. **Thermally Fused Laminate**
   - For low-touch surfaces, Thermally Fused Laminate coordinates beautifully and makes the most of design budgets.

5. **Virtual Design Library**
   - Our evolving online library allows for expressive designs made from High Pressure Laminate.

Wilsonart® Engineered Surfaces  wilsonart.com/education
Dining areas demand a lot from surfaces inside them. Not only do our surfaces offer a menu of school spirit options, they also support a superior level of food safety.

**Solid Surface**

With this easy-to-maintain surface, you can worry less about spills and messes and more about the students who share the space.

**Compact Laminate**

Across the dining environment, our Compact Laminate looks great and handles impact with ease. It’s also seamless and moisture-resistant – non-negotiables when food and drinks are involved.

**Wilsonart X You**

Show your school spirit with entirely custom laminates, created with camera-ready artwork, photos, or illustrations.

**Specialty Laminate**

Apply Decorative Metal for signage. Make a statement with Chalkboard laminate. Our Specialty Laminate are the secret ingredients for well-functioning dining areas.

---

**Food for thought.**

**Café**

By engraving our Compact Laminate, you can create eye-catching, cost-effective design elements. Further enhance the area’s beauty, and protect it for years to come, with food-safe and durable Solid Surface for transaction counters.

**Grab and Go**

Why settle for close enough? We provide an easy-to-spec combination of High Pressure Laminate, Thermally Fused Laminate Panels, and Edgeband, perfect for coordinating tables, shelves, and other dining surfaces.

---

**Grab & Go**

Our Solid Surface is an ideal addition to cafeterias – durable, non-porous, and NSF compliant. Provides design versatility through dynamic shapes, inlays, and custom design options.
Lessons that last a lifetime.

Makerspace

In this interactive space, Markerboard walls and impact-resistant Compact Laminate tops and cubbies support active learning. When chemicals are involved, our Chemsurf™ provides added resistance without sacrificing style.

Science Lab

Durcon® Epoxy Resin worksurfaces and sinks are chemical- and heat-resistant, non-flammable and non-absorbent, making them ideal for harsh laboratory environments. Available from Durcon®, a Wilsonart Company. Learn more at durcon.com.

The modern classroom doesn’t sit still. It’s always moving, changing, and requires materials that can take a beating. From loose furniture to built-in cabinets, the smartest choice is always Wilsonart.

Solid Surface

Non-porous, seamless and color-through, our Solid Surface excels in high-use settings. As a renewable and repairable surface, it also provides easy day-to-day maintenance and long-lasting durability.

High Pressure Laminate

Our High Pressure Laminate is durable, beautiful, and moisture resistant. Specified with AEON™ Scratch and Scuff-Resistant Technology, this surface performs better, longer.

Markerboard

By putting our Markerboard on classroom tables, teachers can sketch through ideas with students and visualize progress in real time.
