PRODUCT OVERVIEW

The Wilsonart® Decorative Metals collection offers sophisticated design options for decorative metal applications.

Wilsonart® Decorative Metals are designed for interior use only and have a wide range of vertical, decorative signage, and accent banding applications. Common design applications are retail facilities, hotel and office lobbies, theaters, restaurants, and casework designs. Please note Wilsonart® Decorative Metals are not recommended for horizontal surfaces.

This design line utilizes Galvalume® Steel and Aluminum for base metals. The unique difference from standard decorative metal designs is the wide range of color, tone, texturing, and sheen options.

Colors include copper, silver, bronze, gold, grey, and blue-grey. Strips, swirls, and brush stroke looks add to the design options. Tonal variations in the Artisan Group and Metro Collection complete a full design palette.

Final finish (sheen) for surfaces ranges from matte to high gloss.

Standard metal sheet width is 48 inches. Sheets are available in 96 inch and 120 inch lengths. Certain patterns are limited to 96 inch lengths; refer to the Wilsonart Guide Specification 05 7000 - Decorative Metals for a listing of these patterns. The full line of aluminum Decorative

Metals is available with an optional phenolic backer for flat surface (non-formed) applications.

The Galvalume® Steel Decorative Metal product is not available with a phenolic backer.

Wilsonart® Decorative Metals are bonded to installation substrates with Wilsonart® 950/951 and Wilsonart® 800/801 Contact Adhesives.

TECHNICAL DATA

Wilsonart® Decorative Metals are Class 1/A rated according to ASTM E 84 test procedures.

SUSTAINABLE DESIGN

LEED® 2009 potential credits can be obtained in the Commercial Interiors category for the following:

- MR 4 Recycled Content
- IEQ 4.1 Low-Emitting Materials
- IEQ 4.4 Low-Emitting Materials

Wilsonart® Decorative Metals are UL GREENGUARD Gold Certified for low chemical emissions.

CERTIFICATIONS

Wilsonart® Decorative Metals have achieved the following:

UL 2818 GREENGUARD Gold Certified for low chemical emissions.

NSF 51 Food Zone and FDA food contact compliance.

FABRICATION

Refer to Wilsonart Decorative Metals Fabrication Manual for detailed information.

WARRANTY

Wilsonart offers a 1 year Limited Warranty against material defects. Refer to the Wilsonart website for complete warranty information.

CARE AND MAINTENANCE

Refer to the Wilsonart website for care and maintenance instructions.
